

LIVE EVENT CINEMA SERVICES

Encompass offers **live event cinema** delivery on a global basis. Using our unique combination of assets, we capture your event from anywhere, process it to your desired format and deliver it for reception by any live enabled movie screen, anywhere on the planet.

Encompass delivering live event cinema across the globe.

- ✓ Onsite production and transmission capability
- ✓ Global satellite and fibre infrastructure
- ✓ IP event encoding/streaming
- ✓ Cinema helpdesk facilities
- ✓ Event consultancy and project management

ONSITE PRODUCTION & TRANSMISSION CAPABILITY

Encompass' multi-camera production facilities ensure your content is captured in a high-quality format and transmitted securely to satellite.

GLOBAL SATELLITE & FIBRE INFRASTRUCTURE

Through vast satellite and fibre network footprints, Encompass is uniquely positioned to offer a broad range of distribution services. We provide satellite, fibre and IP solutions that enable live cinema content to be transmitted anywhere across the globe.

IP EVENT ENCODING/STREAMING

Encompass captures your content and encodes it for distribution in multiple formats.

CINEMA HELPDESK FACILITIES

Encompass offers technical support during live events including signal monitoring/verification and assistance in tuning or troubleshooting your satellite receive equipment.

EVENT CONSULTANCY & PROJECT MANAGEMENT

Drawing on years of experience delivering live events, Encompass provides advice and support on all aspects of event cinema distribution including production requirements, distribution paths, suitable in-country receive networks and best practise in the run up to/during a live transmission.
